STONY PLAIN, ALBERTA, THURSDAY MAR. 22, 1934

Whole No. 704

YOUTH SUFFERING FROM T.B. THE VICTIM OF RED TAPE.

(From The Edmonton Bulletin, March 16.)

"A glaring example of how government rules and regulations often work pain and hardship was brought to the attention of civic authorities after Jabez McLean, 21, of Stony Plain district, was admitted to an Edmonton hospital Thursday for the treatment of tuberculosis.

"The youth, who has been living with a brother on a farm south of Stony Plain and whose parents reside in New Brunswick, states that he went to a physician at Stony Plain shortly after Christmas for a medical examination. He visited the doctor again some time later and was informed he was suffering from a heart condition.

"Then the red tape came into the picture. Advised to visit the provincial clinic here, he came and was told he would have to get an order from Inga Municipality, in which he resided, before he could receive an x-ray examination. Inga officials told him he would have to get a letter from the Stony Plain doctor.

"Armed with this letter, he was given the X-ray examination, the ailment diagnosed as tuberculosis, and he was ordered to hospital.

"The hospital refused to admit him without an order from the municipality. So he went back to his district, where authorities told him he had not resided there long enough to be eligible for assistance.

"Returning to Edmonton, McLean sought help from the Salvation Army, which gave him a night's lodging. He was then referred to the city relief department. Informed of his desperate plight, officials swept the rules to one side and authorized hospital treatment."

PASTRY OF ALL KINDS.

PHILIP TRAPP, - Proprietor.

Before the P. M.

Two cases were heard by Magistrate McCulla on Saturday last.

The case against Samuel Tyrkalo, charged with theft of traps, was dismissed after evidence on both sides had been heard.

August Like pleaded guilty to a charge of theft of grain, and was sentenced to 90 days' imprisonment. Gus was allowed 5 days in which to get ready for the trip to "The Fort."

Geo. J. Bryan appeared for both accused.

Stolen Car Recovered.

Having brought in a bunch of hockey fans to the Arena one evening last week, and parked his automobile in the Arena's east end area, Mr. Christy was surprised, on returning to the parking place after the games, to find that someone had taken the car for a joyride. The City police were notified, and the car was returned to Mr. Christy two days later.

The Horse Sale.

There was a good crowd of farmers in attendance at the sale of horses at the local livery barn last week. Twenty three animals went under the hammer of the Edmonton auctioneer. A few local horses were sold at fair prices. One team was bid up to \$100 and withdrawn. A single horse brought a bid of \$71. Another sale of horses is in sight.

Free Movie Picture Tonight.

This Thursday Evg. the 22nd a free movie picture will be shown at Moose Hall by the Union Tractor Co. The workings of the various tractors will be shown, including the Diesel and the Caterpillar tractors, giving a view of the distillate fuel type. The show opens at 7.30 p.m., so come early and secure a good seat.

Good News for Auto Drivers

The 20 per cent cut in automobile license fees this year had been set for April 1st. In view of the fact that this date falls on Sunday and that the next day is a public holiday, Mr. Trowbridge, who issues the licenses for the Government, announces that the cut will take effect Sat. March 31.

This means that car owners will be enabled to operate their machines for the double holiday, Easter Sunday and also Easter Monday, besides the last day of this month.

1934 Chevrolets on the Way.

Sommerfield & Mayer have a shipment of 1934 Chevrolets on the way to Stony from the plant at Oshawa. Following the precedent established in 1933, Chevrolet Six has brought out a "StanPard" Series which is expected to enjoy the same popularity as last year.

The new Standard Six, with a wheelbase of 107" resembles the Chevrolet Master Six so much that it is difficult to distinguish it on the road, but it differs in a number of details, and particularly in price. It is Canada's lowest-priced car line.

Wheat Control Legislation

With the introduction of legislation in the House of Commons at Ottawa, and simultaneously in the legislatures of the three prairie provinces, whereby power is to be taken by the several governments to control the marketing of wheat, a complete reversal in the policy which has hitherto been one of the outstanding features of Canada's development will become effective. Time alone will reveal whether the policy now being adopted is wise or not, but unquestionably the several governments concerned are convinced that it is a necessary step to take at this particular period in our national and economic history.

From the earliest days of the opening of Western Canada to settlement, and following the construction of our first transcontinental railway, it has been the aim of all governments at Ottawa not only to encourage settlement, but through the provision of all necessary services to promote the production of the greatest possible volume of wheat. In the development of these policies the Federal government has been assisted and its efforts supplemented by the Provincial governments in the West. Production was encouraged in all possible ways and by every practicable means. A never ceasing battle against weeds, insect pests, rust, losses from hail, has been waged; new varieties of early ripening grain have been developed in order to increase the area capable of wheat production; the use of good clean seed has been stressed; the credit of the Dominion and the provinces has been utilized to make Western Canada a great wheat producing country.

Under the legislation now before parliament and the legislatures, governments are to take control of wheat sales and marketing, in order to restrict the volume of such sales, and to apportion among the farmers the amount which will be permitted to sell in the coming crop year, while the Federal authorities will control the volume of sales and deliveries outside the provinces.

"Control of Marketing of Wheat Acts" of a uniform character submitted to the legislatures of Manitoba, Saskatchewan and Alberta provide for control by license or otherwise of the quantity of wheat which any owner or occupant of land may sell during the crop year 1934-35. This legislation also provides that any wheat sold in the provinces shall be sold and delivered in accordance with the regulations made by the Provincial Boards; allows an interprovincial board to take possession and sell wheat stored anywhere in the province; provides power to enter into contracts or agreements of any kind with respect to the purchase, sale, handling, transportation, storage and insurance of wheat and to determine what constitutes delivery or possession.

In a word, the provinces take absolute control over the marketing, purchase and sale, and the handling and transportation of all wheat within their respective provinces, while the Dominion takes control of the sale and deliveries of wheat outside the provinces whether within Canada or to other countries.

This, in substance, is the manner in which it is proposed to implement Canada's undertaking in the International Wheat Agreement negotiated at London last year, rather than to attempt to enforce a definite per centage reduction in the acreage sown to wheat and which might, or might not, depending upon climatic and other conditions, result in a lowered wheat production.

Unquestionably the administration of this new legislation will be difficult. It will call for great tact and discrimination if almost universal criticism of and opposition to it is not to develop. Consideration must be given to those thousands of wheat farmers in the drought stricken areas of the West who have not enjoyed normal crops for several years and many of whom have had no crops at all. If crop conditions are favorable this season they must be allowed full opportunity to rehabilitate themselves. The needs of a farmer with a large family of young children are necessarily greater than those of a farmer having no family, or whose children are now of adult age and can care for themselves. In fact, a hundred and one varying circumstances will arise demanding consideration. Hence, the task of issuing individual licenses fixing the quantity of wheat which each farmer may sell will be a task in itself.

The new legislation is to be effective for one year only, although, of course, it may come up for review prior to its expiration. In view of present world conditions this restrictive legislation may be necessary; governments at all event appear to be convinced that it is necessary. Therefore, despite the many conflicting views which prevail, it would appear to be best that people generally should not only agree to give it a fair trial, but that they should do what lies in their power to make the proposed system operate as efficiently and with as little friction as possible. Let us see what it can accomplish for our farmer producers in the crop year 1934-35.

Canada's New Flour Markets

Four new markets were gained by Canadian flour in 1933—France, Portugal, Salvador and Alaska. In 1933 Canadian flour was shipped to 70 external markets in all compared with 75 markets in 1932. The British Empire took 4,318,859 barrels of Canadian wheat and flour in 1933 compared with 4,318,859 barrels taken by non-Empire countries.

Map Built Of Concrete

Possibly the largest relief map in the world exists in Nova Scotia. On the boundary of the two provinces of Nova Scotia and New Brunswick a relief map of Nova Scotia was erected three years ago, and measures 150 feet long and 80 feet high. This relief map is built of concrete in generous colors and is illuminated at night by flood lights.

Smothering Sensations
Faint and Dizzy Spells

Those feelings of faintness; those dizzy spells; those all-gone smothering, sinking sensations which come over people from time to time, are warnings that should not go unheeded. They indicate an extremely weakened condition of the nerves and vital organs, and should be given immediate attention. Those suffering in this way will find Milburn's H. and N. Pills a remedy with which to recuperate their health, build up their run down system, and bring back their bodily vigor.

Ask your druggist for Milburn's H. and N. Pills.

Alberta Telephones

Zoning Plan To Deal With Rural Lines Is Proposed

Adoption of a zoning plan in dealing with the rural telephone lines so that sections would be kept in operation for social service or other purposes, was recommended to the Alberta legislature by Premier Brownlee when speaking on the Duggan resolution demanding an inquiry by a house committee into the problems of this public utility, said to have an accrued loss of \$10,000,000.

The premier also announced that the government has already taken steps to select a competent engineer to make a survey of the department with a view to supplying a house committee with required information.

EXCESS FAT DUE
TO RHEUMATISM

One Remedy For The Two Troubles

Having rheumatism so badly that she could scarcely walk, this woman began to put on a load of superfluous flesh. In a letter just received, she writes:

"I had a severe attack of rheumatism in both knees. It was so bad that for three weeks I could not put my feet to the ground. I was also getting terribly fat—through not getting my usual exercise. I started taking Kruschen and persevered. The first thing I noticed was the tonic effect it had; the next that my rheumatism went, and—better than anything—I lost the wretched fat. I am a woman of 50, and when I tell you I do exactly the same work as when half my age without the least difficulty, I think you will understand why I swear by Kruschen Salts and recommend them whenever I go."—M. E.

The six salts of Kruschen assist the internal organs to throw off each day the waste and poisons that encumber the system. Then, little by little, that ugly fat goes—slowly, yes—but surely. The rheumatism and headaches disappear. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now! We will send you a box of our famous special "GIANT" packages which make it easy for you to get the most out of your Kruschen. Ask your druggist for the new "GIANT" 25c package. This consists of our regular 75c bottle together with a separate trial bottle for about one week. Open the trial bottle first, put it to the test, and if you enjoy it, return the trial bottle and we will send you the regular bottle. Your druggist is authorized to return your trial bottle and without question. You have tried Kruschen free, at our expense. —But surely, the rheumatism and headaches disappear. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life.

Russia's Grain Supply

Government Starts Campaign To Avoid Famine In Future

The Soviet government has instituted a campaign to assure Soviet Russia adequate grain supplies this year and avoid future threats of famine. Both party and government officials throughout the union have been ordered carefully to select grain seeds and test for germination before planting. In the past, poor seed has been blamed for huge crop failures, resulting in famine threats in areas where the farmers should be able to produce plenty.

Jumpy Nerves

Yield to the soothing action of this medicine. You will feel better... sleep better... feel better... look better. Life will seem worth living again. Don't delay any longer. Begin taking it today.

Put Bootleggers To Work

So many bootleggers have been arrested in Finland as the result of new legislation that special barracks for some of them have been built in the Suokola district of central Finland. It will hold 200. The sentenced bootleggers are to be employed in reclaiming marshy and rocky land. The Finnish government recently issued statistics showing that 129,000 gallons of contraband liquor had been seized in the first 11 months of 1933.

Little Journeys In Science

CARBON DIOXIDE

(By Gordon H. Guest, M.A.)

Carbon dioxide is the gas produced whenever carbon or any of the common fuels, all of which contain carbon, burn in oxygen or air. It is also formed in certain processes such as fermentation and the decay of organic matter. Large quantities also escape from volcanoes and crevices in the earth. It is present in the open air to the extent of about three parts in 10,000. This relatively small amount is essential to the life of all plants and hence it indirectly serves to supply us with our food.

One of the essentials of the life process in animals is the slow combination of the oxygen, taken in by the lungs, with the food which has been consumed. This reaction liberates the heat which keeps the body warm. The products of this body combustion, carbon dioxide and water vapor, are exhaled with each breath.

At first thought it would seem that the constant production of this great amount of carbon dioxide must fill the atmosphere with the gas. The fact is, however, that when pure air in the country is analyzed, it is never found to contain more than three or four parts in 10,000. This is because most plants reverse the process which takes place in animals; they take carbon dioxide from the air and give off oxygen.

Carbon dioxide is without color or odor and about 1.5 times as heavy as air. At ordinary temperatures one volume of water dissolves about one volume of gas but under pressure much more will dissolve, a property used in preparing effervescing soft drinks.

It is well known that carbon dioxide escapes through openings in the earth's crust. In a cave near Naples, enough carbon dioxide issues from the cracks in its floor to form a layer from two to three feet deep along the bottom. If a man and a small dog walk through the cave, while the dog quickly becomes unconscious, and soon dies if not rescued, the man, whose head is well above the layer of poisonous gas, feels no bad effects. This cave, because of its fatal effect on dogs, is called Grotto del Can, which means the "cave of the dog".

New Motto For Legion

Legacy From Former Corps Commander, Sir Arthur Currie

Terming it a legacy to the organization from the former corps commander, Sir Arthur Currie, the Dominion executive council of the Canadian Legion, at its opening session at Ottawa, adopted as its motto seven words from the last message of Sir Arthur, one which he prepared for the Remembrance Day observance in Toronto last November. The Legion's new motto, which will appear on its thermometer, and which will also be used on memorial occasions, is "They served till death; why not we?"

The council also adopted a new empire trade slogan for the Legion, adopting the phrase which is now in use by the American Returned Soldiers' League, "Wherever you trade, buy empire made." A special design, embodying this slogan, with the Union Jack and the Canadian Legion crest, will be created, to be used as a means of promoting empire trade.

Pecan Nut Loaf

2 tablespoons Crown Brand Corn Syrup

1 cup milk

1 pound dates

2 cups white sugar

1 teaspoon Mazola

2 cups pecan meats

Powdered sugar

Cook the syrup, sugar, Mazola and milk to the soft ball stage or 240 degrees on the thermometer. It is best to use a deep skillet or saucepan, as the mixture boils high.

Add the stoned dates and stir until they are well mashed. Stir in the nuts, slightly more or less than the given quantity, remove from fire and beat until stiff. Place in wet napkin and roll into shape. When cold, slice and roll in powdered sugar.

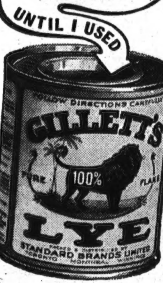

There are 380,000,000 spinsters in the world—6,000,000 in Britain, 8,000,000 in France, 11,000,000 in the United States, and 16,000,000 in Germany.

MINARD'S
"KING OF PAIN"
LINIMENT

Immense Mineral Wealth Is Revealed By Development Work In The North-West Territories

Owing to the evidence that there will be greatly increased activity in the Great Bear Lake mining field, in 1934, Hon. Thomas G. Murphy, Minister of the Interior, has directed that the Sub-mining Recorder's office at Cameron Bay be raised to the status of a Mining Recorder's office and that all the records relating to the Great Bear Lake field be transferred from Fort Smith to Cameron Bay as soon as possible. The general increase in mining and prospecting activity will be greatly accelerated this year because of the expiration of the moratorium on representation work, and the change at Cameron Bay is to facilitate all lines of activity by having the records immediately available to miners and prospectors in the centre of the field, instead of necessitating a trip to Fort Smith.

That the mining properties in the Northwest Territories are developing the keynote of the reports received by Hon. Mr. Murphy, from officers in the field during the year 1933, with the trend of operations in the past season chiefly in the development of present holdings toward a production basis. Great Bear Lake is still by far the most important mining field in the Northwest Territories and development during 1933, while not spectacular as of great significance as it practically proved that several promising properties have every indication of becoming important producers in 1934 and 1935.

The principal companies have carried out extensive trenching and diamond drilling with very satisfactory results and in a number of cases shipments of ore and concentrates have been made to reduction plants in British Columbia and Ontario. Following in the wake of this development activity, other improvements have been noted, such as cheaper and better transportation facilities both by air and water, improved radio communication, extension of surveys, location of a doctor and establishment of a Royal Canadian Mounted Police detachment in the centre of activity at Cameron Bay, and the erection of three saw mills and the opening of several stores. The addition of \$100,000 worth of equipment to improve transportation facilities on Great Bear Lake is under consideration for the coming season by one of the leading transport companies.

The various government departments have been active in assisting industry in the development of the Great Bear Lake mining area. The department of the Interior is charged with the administration of the Northwest Territories and consequently has played a leading role in this work. Maps of the country lying south and east of Great Bear Lake are in course of preparation in the Topographical and Air Survey Bureau of the department, based on aerial surveys carried out in co-operation with the Royal Canadian Air Force. These maps will be of great assistance in the prospecting and development of this very promising district.

Last year the Department of the Interior also had a townsite laid out at Cameron Bay and to date over 100 lots have been applied for and numerous buildings erected. A survey was also made by the department's mining inspector of the timber resources adjoining Great Bear Lake with a view to their orderly utilization.

Other departments are active in this area. The Department of Public Works is improving conditions for water transportation at several points; the Department of Justice has established a Royal Canadian Mounted Police detachment at Cameron Bay; and an up-to-date wireless station has been installed at the same point by the Department of National Defence.

The search for gold was actively prospected by prospectors in many parts of the Northwest Territories during the past year, and unconfirmed reports indicate that important discoveries of placer gold were made in

the South Nahanni country. Last fall two prospectors returning from the South Nahanni area, which lies in the southwestern part of the Territories and close to the territorial boundary between the Yukon and the Northwest Territories, reported that they had washed some rich gravel on McLeod creek and obtained a fair quantity of coarse gold. Although officials of the Department of the Interior were unable to confirm this report by personal interview, the news spread rapidly and a small rush resulted. By the end of December there were approximately 100 placer claims staked.

The original discoveries were on McLeod creek and two other small feeder creeks, the Diamond and the Canyon. It is also reported that claims have been staked on creeks running into flat and prairie rivers, which together with the McLeod are tributaries of the South Nahanni river. Several prospecting parties have been flown into the area while a number of others proceeded by dog-team from Simpson on the MacKenzie river.

In August last another coal lease was granted on the southern shore of McVicar Arm, Great Bear Lake, where the main outcrop consists of a seam of black lignite over eight feet in thickness. The Northwest Company, subsidiary of Imperial Oil Limited, operated its wells on the MacKenzie river 53 miles below Horn and produced over 4,500 barrels of petroleum and gasoline, of which about 90 per cent was shipped to Great Bear Lake.

Development work, which was carried on by the twenty most active companies in the district, continues to show the immense mineral wealth of this field. Several of the earliest claims staked have reached the production stage and notwithstanding the great attention which development work received during the past year over fifty tons of pitchblende and native silver were shipped out to reduction plants at Trail, British Columbia, and Fort Hope, Ontario. One company has already been shipping for treatment, since 1931, high grade radium and silver ore and in December, 1933, transported by plane the first high grade radium concentrate obtained from its fifty-ton mill. Shipments of concentrates from radium and silver ore will be increased as soon as water transport becomes available this year. Although it is hardly four years since the first discoveries of radium-bearing ore at Great Bear Lake, Canada has already become an important producer of this valuable element and as production increases the Great Bear Lake area will be the source of ore from which the whole of Canada and the British Empire can be supplied with radium.

While the discovery and development of the deposits of radium-bearing ore at Great Bear Lake has occupied public attention, silver is the predominating precious metal found in this field. Numerous veins containing high grade silver have been located on several large properties and development of these holdings has proved that several of them will be producers and shippers during 1934.

Hundreds of men were employed on the various claims undergoing exploration and development and the mining equipment is being raised to a very high standard. One mill has been handling over 50 tons of ore daily since early in December while a ten-ton pilot mill which was erected last year is being replaced this year by a twenty-five-ton mill. Plans have been prepared for a fifty-ton mill to be erected on another property this summer.

Work already accomplished on the different properties and plans underway indicate that 1934 will be one of the most important years in the development of the Great Bear Lake area. In other parts of the Northwest Territories exploration and prospecting work will continue to be carried on in the hope of further adding to the known mineral wealth of the Dominion.

615
T'S SPRINGTIME FOR YOUNGER FASHIONABLES AS WELL AS FOR MUMMIES

Pattern includes dress—Rabbit. Today's little dress is carried out in an old-fashioned calico printed dimity.

The plaits of the skirt are arranged to form a box-plait effect and away so prettily in motion.

Style No. 615 also includes pattern for the pet rabbit. Designed for sizes 4, 6, 8 and 10 years.

Size 8 requires 1½ yards of 39-inch material with 1½ yards of binding; rabbit requires ¾ yard of 35-inch material.

Striped or plaided cotton is another very smart choice. Linen and chamois prints are much favored and quite suitable for this easily made dress.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

DEFIED A KING FOR LOVE

All the king's horses and all the king's men couldn't make young Prince Sigvard of Sweden change his mind about wanting to marry Fraulien Erika Patzek, German film actress, with whom he is shown in London. The Prince flatly refused the pleas of King Gustav of Sweden, his uncle, that he reconsider the matter.

Plans For Ambitious Air Project To Be Launched In 1935 For A Rapid Trans-Canada Service

Area Of British Columbia

New Figures Published By Lands Minister Believed Accurate

Exact area of British Columbia is 366,856 square miles. This figure is published by Hon. A. Wells Gray, minister of lands, on the strength of a detailed computation made by the surveys branch.

The 1897 Year Book, last official statement having the authority of the government, gave an area of 364,000. The figure most commonly used by department officials in recent statements has been 372,630. The Encyclopedia Britannica gives only 355,855 square miles.

But the new figure is about as accurate as it is ever likely to be, despite the fact that there is an area of 75,000 square miles in the northeast of the province, bounded by meridian, and parallels of latitude that has not one mile of survey line and has not a single survey monument in it.

Of the 366,856 square miles now known to constitute the area of the province, the report shows 6,976 square miles to be covered by water in rivers and lakes.

Attention is drawn to the fact that, despite the presence of several large cities, British Columbia's total population amounts to less than two to the square mile. For every man, woman and child in British Columbia, there is half a square mile of land.

No Job For Women

Only Men Should Pilot Commercial 'Planes Says Woman Aviator

Antonie Strassman, one of the first German woman flyers, who arrived in New York recently, admits ruefully that women must confine their exploits to the field of amateur aviation.

"The day of experimental flying is past," she said. "It is time for women to admit that commercial aviation is a man's job. Passengers have more confidence in male pilots. Women are not found at the controls of locomotives and they should not seek to pilot the great commercial planes."

Mrs. Strassman has taken out her first naturalization papers and hopes to live in New York. She will continue to fly, but only for her own amusement.

The longest aqueduct in the world is the Pugliese. It is 1,175 miles long and serves 536 Italian towns.

South Africa may reduce its tax on excess profits of gold mines.

From Halifax to Vancouver in 19 hours, from Toronto to Halifax in six hours, and from Toronto to Vancouver in a little more than 14 hours—not a stunt, but as a day-to-day performance—is the ambitious project scheduled to be launched in 1935 by Canadian Airways in collaboration with other Canadian companies and the Dominion government.

The companies will be ready with a fleet of airplanes capable of sustained cruising speed of 200 miles per hour as soon as the government believes economic conditions adequately recovered to warrant extension of air mail contracts.

By next year, under unemployment relief work carried on by single men in government camps, four new flying fields will dot Canada from coast to coast, all as part of carefully planned preparations designed to give Canada as modern a commercial airways service as is enjoyed by any country.

When the service is launched Halifax will be little more than four hours from Montreal, and 1½ hours from Winnipeg.

Airplanes will shoot from Toronto via North Bay, to Winnipeg in a trifle more than six hours; on to Medicine Hat in another three and half hours; out south through the Crow's Nest Pass and on to Vancouver in less than five hours more. Subsidiary services will bring Edmonton, Saskatoon, Prince Albert, Battleford and other points north of the projected main route within a few hours of it, most of them within less than an hour of connections.

England Wants Store Cattle

Market For Two-Teeth Animals At Spring And Autumn Sales

To avoid any misapprehension on the part of Canadian shippers, of "store" cattle, says the Canadian trade commissioner, it should be clear that "stores," according to the British farmers' needs, are two- or three-year-old animals, preferably the former. Unfinished three-year-olds are not considered as being store and never will be. Feeders will not buy them. They are always sold as immediate slaughter. Even two-year-olds may be too badly built to find buyers other than the butchers, but there is an outlet for the good ones and always for the two-teeth animals at the spring and autumn store cattle sales. The seasons for the best trade in store cattle are late April, May, June, September, October and early November.

Farm Trucks And Autos

Statistics Show A Motor Vehicle For Every Two Farms

The introduction of the tractor some twenty odd years ago marked the beginning of the period of most rapid expansion in size of farm, particularly on the plains of the West where such power could be used to advantage. In 1921 there were 47,455 tractors on farms and 105,269 in 1931. Along with this increase in use of tractors came increased dependence upon trucks and automobiles. In 1921 there were 157,022 such vehicles on the 711,060 farms, or about one to every four farms. In 1931, with trucks recorded separately at 48,402, and automobiles numbering 321,276, there was a motor vehicle for every two farms. Actually 303,364 farms reported cars and 46,366 reported trucks.

Official Stamp For Beef

The two first grades of beef have been designated by the Dominion government as "Red" which is "Choice" and "Blue" which is "Good". These official stamps appear on every cut in red or blue edible ink according to grade. The product of the Division of Agriculture, Dominion Department of Agriculture, and is perfectly harmless.

GRANTING TITLES IS APPROVED BY VOTE IN HOUSE

Ottawa.—With three members jumping party lines, the House of Commons placed its approval on titles for Canadians.

By a vote of 113 to 84, Conservatives defeated a motion, sponsored by Humphrey Mitchell, Labor member for East Hamilton, to restrain the prime minister from making further recommendations to the king for titles and honors.

Lining up with the Liberals, Progressives and United Farmers in support of the non-titles motion, were the Hon. J. G. Macdonald, Minister of Agriculture, George Spott, North Huron, and I. D. Cotnam, North Renfrew. On the other hand Sir Eugene Forster, Liberal, Rimouski, former deputy minister of national defence, joined the government forces.

In the biggest vote of the session, with pairs unrecognized, the government had one of the smallest, if not the smallest majority since it came into office in 1930. Conservatives have a working majority of 30 over all parties in the house, with one vacancy.

Premier R. B. Bennett defended titles on the ground they were recognition by the state of public services rendered to the country or humanity. Rt. Hon. Mackenzie King, leader of the Liberals, said Canadians generally opposed titles because they established class distinctions that were foreign to a democratic state.

Emergency Wheat Control

Manitoba Legislature Introduces Measure To Implement London Agreement

Winnipeg.—Legislation to implement the London wheat agreement was introduced in the Manitoba legislature by Premier John Bracken. The measure is identical in essentials to similar legislation brought down in Alberta and Saskatchewan assemblies.

The bill provides for the setting up of emergency wheat control boards with power to license or regulate the sale and purchase of wheat during the crop year August 1 to July 31, 1935.

Immediately following the premier's address, his motion for the bill was approved, the measure received first reading.

Start Daring Journey

Mountaineers Plan To Cross Coast Range On Skis

Williams Lake, B.C.—Headed by two well known English Alpinists, Sir Norman J. Watson and Wing Commander E. B. Beauman, a party of daring mountaineers left here March 13 for Tatla lake, from where they will trek into the wilderness in an attempt to cross the towering coast range on skis.

The men arrived here from Vancouver by train. They planned to travel by auto truck to Tatla lake and they expected the 60-mile journey would occupy at least two days. The skiers were equipped to clear the snow-bound roads to permit passage on the trucks.

Travelling Medical Clinic

Winnipeg.—Travelling medical clinics to treat children in unorganized territory of Manitoba are to be initiated this year in co-operation with the work of the public health nurses, Hon. R. A. Hoy, minister of health, told the Manitoba legislature in discussing appropriation for the department of health and public welfare.

Asks Protection For Growers

Victoria.—G. H. Chataway, on behalf of the Ashcroft Ranchers' Association, charged that "dumping" of low grade Alberta beef in British Columbia had depressed the prices of B. C. beef below the figures profitable to the growers. Mr. Chataway proposed a tax of five cents a pound on all beef, mutton, pork, veal and lamb not raised in British Columbia.

W. N. U. 2038

Four-Point Arms Plan

France To Make Proposal On Disarmament Question

Paris.—France will propose a four-point arms convention in reply to the recent British disarmament plan. A note now being drafted by the foreign affairs committee, it was learned on reliable authority, will accept an arms treaty, providing that:

First, German storm troops are included in any count of the reich's soldiers.

Second, France will not be asked to disarm immediately if the reich is granted the right to re-arm.

Third, serious guarantees will be given that the convention be carried out faithfully.

Fourth, that the convention be concluded shortly because many countries are already speedily re-arming.

Failing in these reservations, the note hints, it was said, that France will be unable to budge unless Great Britain offers to come to the aid of France in case of attack.

The stubborn Franco-German impasse meanwhile, was not changed by Chancellor Hitler's reply to the latest French note.

French officials said the German leader had "changed nothing" in the situation.

The chamber of deputies foreign affairs committee told Premier Doregue that the forthcoming note must leave the door open for disarmament.

Rescue U.S. Seamen

British Vessel Succeeds In Saving Lives Of Men Aboard Gunboat Fulton

Hong Kong, China.—The 187 men aboard the United States gunboat Fulton when flames enveloped her during a heavy storm were brought safely to this port.

Three of the crew were injured. One suffered smoke in the lungs, another had a broken arm, and the third a broken leg. Their names were not available. The Fulton was on patrol duty against pirates.

Their rescue by H.M.S. Wishart and the British steamer Taitan, was an example of wonderful seamanship, the survivors related.

Commander Todd of the Wishart brought his craft alongside the ill-fated ship at great risk in a heavy sea.

The mishap occurred about 50 miles northeast of Hong Kong, while the Fulton was en route to Foochow, China.

The Fulton was abandoned at 10 p.m., still burning furiously.

No Grant Sought

Ottawa.—A grant of \$4,500 to the United Maritime Fishermen voted in the House of Commons brought sharp criticism from A. W. Neil (Ind., Comox-Alberni) who wanted to know why no such grant was paid to any of the British Columbia fishermen's organizations. The reply from Hon. Alfred Durand, acting minister of fisheries, was that no Pacific coast organization had sought such a grant.

Work For School Graduates

Moose Jaw.—A resolution by the collegiate board of the city of Edmonton, asking the government to institute a system of public works for graduating high school students, was endorsed by the collegiate board. The board also decided to ask teachers and students for ideas as to what class of works might be undertaken for the benefit of the youth of the city.

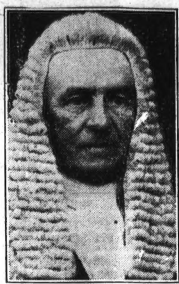

Race Meetings Legislation

Ottawa.—An amendment to the criminal code which would permit race meetings to be held for 14 days consecutively, on such days as racing is legal, instead of having, as at present, at least 20 days intervening between each seven-day period, was given first reading in the house of commons.

Will Stand By Pledges

Victoria.—"This government will not hesitate to be responsible for everything it does and for everything it has pledged itself to, including 'work and wages,'" declared Premier T. D. Pattullo in the British Columbia legislature.

NEW APPOINTMENT

Lord Justice Maughan, formerly Hon. Mr. Justice Maughan of the Chancery Division, who succeeds Lord Justice Lawrence, retired, as the new Lord Justice in the British Law Courts.

St. Lawrence Route

Senator Asks For Information Regarding Navigation Conditions And Costs

Ottawa.—Detailed information of a most detailed character respecting navigation conditions, grain rates, elevator services, dredging, ice-breaking facilities and navigation aids, from the head of the lakes to the sea, will be sought from the government by means of an order for return to the senate, by Hon. Archibald Gillis, Saskatchewan.

In notice of motion, Senator Gillis asks for information with respect to the indefiniteness of harbor commissions and details of their financial condition, the number and status of grain elevators from the head of the lakes to and including Quebec, dredging costs and details from Montreal to the Gulf of St. Lawrence, the number and cost of ice-breakers operating from the head of the lakes to Sydney, N.S., details of all casualties and fatalities on the St. Lawrence during the fiscal year 1933-34, the value and operating costs of St. Lawrence river navigation aids in the last 10 years, and wheat freight rates from various points in the prairie provinces in 1933.

Wheat Exports Down

Marked Decrease Shown For Week Ending March 9

Ottawa.—Export clearance of wheat from Canada for the week ending March 9 totalled 1,910,000 bushels, it was stated in a report issued by the Dominion bureau of statistics. Shipments revealed a decrease of more than 1,500,000 bushels when compared with 3,563,683 bushels exported the previous week and a drop of more than 1,000,000 bushels compared with 3,014,411 bushels during the corresponding week of last year.

BELGIAN RULERS AT SOLEMN TE DEUM

The first photograph of King Leopold III and Queen Astrid of Belgium since their accession to the throne shows the royal couple leaving the Cathedral of Saint Gudule in Brussels after a solemn Te Deum in their honor. Queen Astrid wears mourning in tribute to the memory of the late King Albert.

British-American Trade

New Move Is Made To Increase Business Between The Two Countries

London.—Richard Washburn Child, President Roosevelt's newly appointed "European trade ambassador," will be received cordially in highest government circles, it was learned here, and commercial interests see in his scheduled visit here a new move to increase British-American business.

Pending the outcome of the conversations he will have here, British trade leaders and American interests believe an immediate increase in commerce between the two countries depends largely on stabilization of foreign exchange and easier methods for the sale of British goods in the United States.

There is also an indication that the government here intends to rely more in the future on bilateral negotiations with other countries for an upturn in British foreign trade.

Restores Minimum Wage

Thousands Of Employees In Ford Plants Will Benefit

Detroit.—The five-dollar-a-day minimum wage with which Henry Ford started industry in 1914 has come back. He announced that the \$5 minimum had been restored, effective March 13.

Forty-seven thousand of the 70,000 men employed in the Ford company throughout the United States benefited by the increase. They had been receiving \$4 and \$4.40 a day and it was estimated, unofficially, that the raise would add approximately \$6,000,000 to the Ford company's annual payroll.

East Windsor, Ont.—Restoration of the \$5-a-day minimum wage for factory employees in the main plant and branch assembly plants of the Ford Motor Company of Canada, Limited, was announced by Wallace R. Campbell, president.

Not Taking Over Park

Prince Albert.—The province of Saskatchewan has no intention of taking over Prince Albert national park, says a letter from Premier J. T. M. Anderson to the local board of trade. The board recently recommended administration of the park remain with the Dominion government.

Shortage Of Farm Land

Saskatoon.—A shortage of land for settlement by unemployed Saskatchewan families was seen here as a steady stream of family heads registered for assistance under the Saskatchewan land settlement scheme. Already 375 families have registered.

ST. LAWRENCE PACT REJECTED BY U. S. SENATE

Washington.—The St. Lawrence waterway treaty, negotiated by the governments of ex-president Herbert Hoover and Prime Minister R. B. Bennett in its present form, was a dead issue as far as the United States senate was concerned. Not so at the White House, where even as President Roosevelt admitted the rejection of his request for ratification, he intimated he would reintroduce the measure in some form.

The administration's attitude was expressed as being "as sure as death" that St. Lawrence away would be built. Mr. Roosevelt himself expressed apprehension that failure of the senate to ratify would place the canal entirely under Canadian control.

The certainty of a channel capable of carrying ocean going freighters from the head of the great lakes to the Atlantic was echoed by Senator Robert LaFollette, Progressive-Republican of Wisconsin, one of the loudest advocates of the treaty in the senate. After defeat of the measure by a vote of 46 for, 42 against, falling 18 short of the necessary two-thirds, LaFollette told newspapermen, "This is just the beginning of the fight."

Senator LaFollette represents the attitude of senators from the lake states other than Illinois, which has a special interest in Lake Michigan and the diversion of water from the lake for use in the Chicago drainage canal.

Representing the Illinois attitude, Senator J. Hamilton Lewis, Democrat, a leader against ratification, said the treaty, was defeated because it "violated American rights" and insisted "any proposal to send a new treaty to the senate will be of no avail unless it renounces the claim to Lake Michigan as an international lake and admits the amount of diversion to Chicago is to be determined by congress and the state of Illinois."

With these reservations, he said, the treaty would be approved.

Nudists' Parades

B.C. Member Would Use Drastic Methods To Curb Doukhobors

Victoria.—Release of a hive of hornets, or the use of blacksnake whips by a few hefty provincial policemen would have saved the government thousands of dollars, C. S. Leary (Lib., Kaslo-Slocan), said in the British Columbia legislature, referring to the 1932 Doukhobor nudist parades in southeastern British Columbia. He was speaking in the budget debate.

"Industry in the Kootenays," he said, "is facing a serious situation because of Doukhobor competition. Originally they came into the province to confine themselves to farming and were a self-contained community."

"Now they have gone afield and are in ruthless competition with business men of many years' standing."

"They neither vote, fight nor obey the law. Their standard of living is low and they wish to drag us down to that standard. The time has come when a showdown should be called for. The patience of people in the Kootenays has about reached its limit and the sooner something is done about this unfair competition the sooner we may be in a position to consider codes or other features of an economic recovery plan submitted to the government."

Discussion On Hog Grading

Ottawa.—The advantages of disadvantages to the farmer of hog grading were debated in the agricultural committee of the commons. In every pig market in Canada except Montreal the trading in hogs is done on the basis of the grading by official graders.

More Pay For Teachers

Winnipeg.—With the passing of the Winnipeg school board budget for 1934, teachers to-day were assured of a 10 per cent. salary increase effective next October 1.

Farmers Afraid to Take a Chance on Hogs.

Canadian farmers have not forgotten the trimming they got in hogs in the past few years, says the Market Examiner, and the Dominion Gov's figures of the census of hogs on farms Dec. 1 1933, shows a reduction of over half a million with the total last year end at 3,587,900.

Alberta is reduced by only 52,000, our official figures for the Dec. 1 period being 903,500.

It is really too bad that farmers should feel about hogs as they do, continues The Examiner. There is no use in pointing to the present prices—farmers will point to the prices of the past—and it's surely a case of "read 'em and weep."

With an abundance of feed and land to raise as much more as we can possibly require.

With a market for bacon over in the Old Country waiting for us—still the hog population goes down.

Farmers feel they were stung on the hog price recently, and it is going to take quite a little while for the sore spot to stop bothering 'em; and just for the present they are not going to let the same bee sting 'em twice.

One Way to Figure It.

It is estimated that the products of the farms of Alberta in 1933 were worth 113 million dollars.

That is the gross sum of money the farmers received, with which to support their families, pay debts and taxes, and use as working capital to carry on their operations thru the present season.

Production during the year was heavily curtailed. Grasshoppers and drought "curtailed" the wheat crop 75 million bushels, compared with the 1932 crop.

But this did not boost the farm income. The income was 19 million dollars less, despite larger receipts from dairy products and meat animals.

The federal and provincial governments, the Edmonton Bulletin advises, should ponder these facts before they commit themselves to a still further curtailment of wheat production this year.

It sounds well to tell the farmer he would be better off if he grew half as much wheat and sold it for double the price.

But who is going to guarantee that he will get double the price or any higher price, if he grows less wheat?

The farmer grew less last year and came out 19 million dollars worse off than if he had reaped a full crop.

The Seatless Pair.

Ex-Broker—Three years ago we had seats on the Grain Exchange, and now look at us.

Farmer—We, too, used to have seats in our overalls, but now please don't look at us.

Hotel Chief

A. E. Robertson, Canadian Pacific hotel executive, who has been appointed Assistant General Manager of the Company's Hotels and Chalet-Bungalow Camps in Western Canada, with headquarters in Winnipeg. In his new capacity, Mr. Robertson will have under his immediate jurisdiction such famous hostilities as the Company's palatial mountain resorts at Banff, and Lake Louise, and the Royal Alexandra at Winnipeg, the Hotel Saskatchewan at Regina, the Palliser at Calgary, the Signatus at St. James, the Hotel Vancouver in Vancouver, and the magnificent Empress Hotel in the heart of the Evergreen Playground at Victoria.

Confirmation Service.

Following is a list of those young people who have been attending Pastor E. Eberhardt's Catechism School and who will be confirmed and admitted to membership into the church at the morning public service of St. Matthew's Lutheran Church on Sunday next, March 25th:

Violet Treit
Elsie Fuhr
Martha Goertz
Elsie Zuzi
Lydia Doern
Edna Kulak
Eather Ulmer
Ida Gitzel
Anna Wudel
Lydia Lutz
Albert Wudel
John Goebel
Neiland Goertz
Edward Ulmer
George A. Trapp
Walter Foerster
Ferdinand Hemig

Confirmation Service at St. John's Church, Blueberry.

The following young people will be confirmed at the regular service at St. John's Lutheran Church (Missouri Synod) Blueberry, on Sunday next, March 26th, by the pastor, Rev H. Kuring—

Lydia Enders
Lucy Enders
Lillie Enders
Whitney A. Mayer
Annela Goezinger

SCOTT'S EMULSION
RICH IN VITAMINS

OCCASIONAL WIFE
By **EDNA ROBB WEBSTER**
Author of "Joretta," "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. At a party at the exclusive club Peter entertains Camilla's guests with impersonations. When the rest of the members of the party go to a cabaret to continue the revelry, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Bowman and Weeks, an advertising agency where Camilla has submitted some of her work, send for her and tell her they have a new account which requires unusual treatment of juvenile art. To Camilla's surprise she learns that the account is that of her foster father's company, which has decided on an extensive campaign to bolster up lagging business. After a conference with

HOW TO FIND OUT IF YOU HAVE ACID STOMACH

HERE ARE THE SIGNS:
Nervousness Frequent Headaches
Neuralgia Feeling of Weakness
Indigestion Stomach Distress
Loss of Appetite Mouth Acidity
Nausea Sour Stomach

WHAT TO DO FOR IT:

TAKE—2 teaspoonfuls of Phillips' Milk of Magnesia in a glass of water every morning when you get up. Take another teaspoonful ten minutes after eating. And another before you go to bed.
OR—Take the new Phillips' Milk of Magnesia Tablets—one tablet for each teaspoonful as directed above.

If you have Acid Stomach, don't worry about it. Follow the simple directions given above. This small dosage of Phillips' Milk of Magnesia acts at once to neutralize the acids that cause headache, stomach pains and other distress. Try it. You'll feel like a new person.

But—be careful you get genuine Phillips' Milk of Magnesia, or Phillips' Milk of Magnesia Tablets, when you buy—25c and 50c sizes.

ALSO IN TABLET FORM

Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

Phillips' Milk of Magnesia

Throw away dusts
Use **WONDER PAPER**
It dusts—as it cleans—as it polishes.

W. N. U. 2038

Mr. Bowman, Camilla decides to attempt the work. The critics were enthusiastic about her work, and Mr. Weeks offers her a salary of \$500.00 a week to start and a prospect of having it doubled. She goes to keep a dinner engagement with Peter. She tells Peter of her good fortune in securing employment. Mrs. Hoyt also informed that Camilla has obtained work and is going to leave the Hoyt household. Avis Werth rents a studio on the same floor as Peter, and invites him to have lunch there.

(Now Go On With The Story)

CHAPTER XXXV

After all, what was the harm in accepting Avis' friendly hospitality? She had managed it so that Peter would seem absurd to refuse. His only concern was for time, and he had been about to run to the corner lunch counter for something to eat, anyway.

"One condition," he warned her severely.

"Oh, I know what you are going to say, old ambitious—that I don't encourage you to linger after the last biscuit is vanished. All right, but you know it really isn't polite for a guest to eat and run away. Only a generous hostess would understand the urgency of the situation."

"And you will be generous, of course."

"You know it. Because I am anxious as you are for nothing to interfere with your exhibit. Only a generous hostess would understand the urgency of the situation."

"You can't be one-half as anxious," he scoffed, not taking her seriously in the least.

"Oh, can't I?" she said gently. "Well, that's just why I am looking out for your welfare, so that you will not get into any of your nervous fits as possible, and he will feed at the same time. Ready? Don't bother to take off your sculpting jacket. I like you enough just as you are—even with the smudge of clay on your left ear."

She took his hand like a delighted child who has persuaded the boy next door to play house with her on her side of the hedge. It was the first time Peter had seen her rooms, so he had to inspect and comment before he sampled Miss Culinary's delicacies. His beauty-loving eyes wandered from floors to walls and shone with admiration. They delighted in the rich blend of Chinese rugs, mellow tapestries, oil paintings, draped upholstery, draped window hangings, polished brass and, fragrant flowers in profusion.

"Say, this makes my place look like a barn!" he exclaimed.

"Do you like it?" anxiously.

"Rather!" he fingered a wall tapestry with an appreciative touch. "Where'd you get this—it's a beauty!"

"In Paris. Yes, it's a genuine Gobel."

"Aren't you afraid to keep it here?"

She shrugged and sank into a deep divan, languidly.

"Oh, those things never bother me. I think it is silly to have beautiful things stored away in vaults and safes. I wear my jewels and live with my treasures and enjoy them while I can. Now wouldn't it be stupid to decorate this place with poor imitations or live with bare walls around me, while I sit here and boast to you. I have a marvelous Gobel in the vault, and a Satsuma vase, and some priceless pieces of carved ivory that I discovered in Peking?" she indicated the objects for Peter's inspection.

"I quite agree with you about that!" he declared with enthusiasm.

"If I ever should possess anything valuable, I should want to have it around where I can enjoy it all the time."

"Like your wife?" Avis wondered. She said, "But I promised not to keep you long from your work," and led him across the room to a table arranged for two in the window alcove.

"It would be easy enough to forget work in a place like this. I'd like to browse around and ask questions all day. It's perfect," he continued to admire.

"There will be lots of time for you to browse around when your piece is finished and you are waiting for the verdict of the judges. That will be better for you than walking the floor in suspense." She glanced around the room. "But don't you notice what is missing?"

He looked about, dubiously. "If

there is a minus quantity it can't be more than x, y, or z."

"And you a sculptor!" she chided. "That's right," his glance surveyed the room again. "You don't support the profession, evidently."

"That is just what I want to do. But I purposely omitted the sculpture because I wanted you to do me something very special when you have time."

"Does that constitute an order?" incredulously.

"Several, perhaps." She smiled and tapped a bronze table gong. Tillie appeared promptly with a steaming tray.

To Peter, whose punishment for weeks had consisted chiefly of hearty sandwiches, coffee and heavy pastries, the iced canteloupe, creamed sweetbreads and feather-weight biscuits with gauze jelly were nectar and ambrosia. He ate hungrily and chattered amiably. Avis marked a score on her mental chart.

She would not be so astute as to ruin a good start by indiscretion. The way to make a man believe he wanted a thing very much was to let it become a pleasant and voluntary habit with him. In other words, to make Peter believe he wanted her companionship and the comfort of her solicitous concern for his welfare, more than anything else, was to allow him to develop a casual habit of accepting them. She would force them upon him gradually while she made him believe he sought them without being aggressive—easily, naturally.

It was she, even, who suggested firmly, when he had done ample justice to the food and was smoking leisurely in a deep armchair. "Isn't it about time you went back to your work, old ambitious?"

"Did the whistle blow?" he asked with amused surprise. "I didn't hear it. But you are just about my getting back to work. You almost made me forget that times waits for no man and opportunity flies."

"Your quotations are all jumbled," Avis laughed.

"The food has gone to my head," he apologized. "But, seriously, that's the first decent meal I've had for a week. I hope I didn't eat the glut."

Avis was clever. She did not repeat the same strategem too often. Sometimes, it was just a steaming cup of coffee, handed in to him at the right moment without personal interruption, or an iced drink in the evening when he had stopped work for the day, followed by a friendly goodnight.

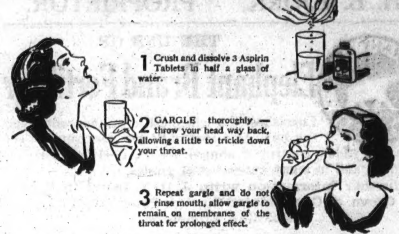

For contrast, there were several days at a time when her door was closed and her rooms devoid of human sounds, while she filled social engagements or remained anxiously at home. But the time never came from the studio long enough to allow Peter's growing sense of loneliness to merge into forgetfulness. She dabbled with her painting, entertained or just amused herself, striving for patience and a friendly indifference toward Peter at the same time that she displayed an intense interest in his work and progress.

So subtle was the effect upon Peter that he soon forgot his aversion to an unfortunate neighbor, dropped his antagonism toward the Avis Werth of the past whom he concluded he had judged too severely, and became so accustomed to her friendly concern for him that he relaxed into his pleasant comfort as he sank wearily and gratefully into one of her cushioned chairs and sipped a refreshing drink at the end of an arduous day.

(To Be Continued)

Verdigris green is the latest color for women's wear in London.

Now! Ease Sore Throat Instantly!

1 Crush and dissolve 3 Aspirin Tablets in half a glass of water.

2 GARGLE thoroughly—throw your head way back, allowing a little to trickle down your throat.

3 Repeat gargle and do not rinse mouth, allow gargle to remain on membranes of the throat for prolonged effect.

Remember: Only Medicine Helps Sore Throat

Modern medicine now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes!

It requires medicine—like ASPIRIN—to do these things! That is why throat specialists throughout the world are prescribing this ASPIRIN gargle in place of old-time ways.

Be careful, however, that you get Aspirin Tablets for this purpose.

Aspirin is the trademark of The Bayer Company, Limited, and the name Bayer in the form of a cross is on each tablet. They dissolve completely enough to gargle without leaving irritating particles.

ASPIRIN TABLETS ARE MADE IN CANADA

An Old Landmark

Mount Royal's observatory, lookout and resting place for thousands of tourists at Mount Royal. It was built 27 years ago, is to be demolished. A new modern structure has already been erected nearby.

YOUR LIVER'S MAKING YOU FEEL OUT OF SORTS

Wake up your Liver Bile

—No Calomel needed

When you feel blue, depressed, sour on the inside, take your liver pills. You'll find the only two brands of liver pills that you need. Digestion and elimination are being slowed down. Food is accumulating and causing trouble. You need making you feel refreshed. More blood-cleansing, liver pills, oil, mineral water, inactive candy or chewing gum, or regulars, don't go for enough. You need a liver stimulant. Carter's Little Liver Pills is the best one. Safe. Purity guaranteed. Ask for them by name. Refuse substitutes. Size at all drugstores.

An optimist is one who hops out of bed on a cold morning, saying: "Well, old bed! He'll be back to you in seventeen hours."

A pessimist is one who hops in bed, saying, "Shucks up again in seven hours!"

There are No Strings To This Seed Deal!

AN impression has been circulated that you can buy more and better Garden and Field Seeds for less money than you can from old established sources.

You positively cannot if you make your deal with me from a selection of over 1,000 varieties of the finest strains of Government Tested Seeds.

DON'T BUY ANOTHER PACKET, POUND, OR BUSHEL OF SEED TILL YOU HAVE SEEN ME.

Use any catalogue, advertisement or price list you please in making up your list of requirements. I guarantee to fill it at same prices for same quantities. In several cases you may find my prices less, in which case you have the benefit of the difference.

3c, 4c (and up), Super-size packets, but I'll sell you any quantity from 3 cent's worth to whatever will seed a section.

And in the bargain, I will hand you "MERCHANTS' NEW WAY COUPON" worth 25c in FREE Seeds.

This is an advertisement, but there is no advertisement equal to a delighted customer.

Let me secure your delight with the greatest Seed bargain and service you ever received.

Stony Plain and District

Sunday's No. 2 train brought
in Mr. Chas. Rice from Van-
couver. Mrs. Davies left on
this train to visit a daughter
in New York City.

Mr. and Mrs. H. Giebelhaus
and family are moving up, this
week to their new home on
Sec. 2-54-2w5.

Mr. Larson, proprietor of
the Royal Cafe, reported for
jury duty yesterday at the
Supreme Court.

Mr. Phillips of the Calgary
Power Co., gave the street
lighting system a look over on
Monday, following complaints
that part of the system was
not giving satisfaction.

BIRTH - In Stony Plain, on
Wed., March 14th, to the wife
of L. Zilliox, a son.

Residents of Garden Valley
held a meeting this week in
the schoolhouse, to organise a
Farmers' Phone system for
their district.

S. P. High Basketball Girls
are putting on a whist drive
in the Town hall on the even-
ing of Wednesday next, the
28th, at 8 o'clock. Admission
20c.

BUTTER AND EGGS WANTED
at The Royal Cafe.

MacLeod Gives Address at Magnolia Banquet.

Donald MacLeod and C. A.
Ronning, M. L. A. Camrose,
were speakers at Magnolia's
U. F. A. Local's annual ban-
quet on Saturday last. The
speakers outlined the C. C. F.
program.

Herman Nieman's Auction.

Tomorrow the 23d is the date
of the big sale on the Nieman farm
at Brightbank. The stock and ma-
chinery are in excellent condition,
and farmer-bidders will welcome
the chance to make a good selection
when Auctioneer Washburn
opens the sale.

There is a pretty large list, and
there is a likelihood of more horses
and machinery being added by the
sale day. The Nieman intend giv-
ing up farming and will move off
the place, coming probably to
Stony Plain to reside. The farm
has been rented to Mr. Seismann,
a neighbor.

Spruce Grove News

On Monday, March 12, the
girls attending Spruce Grove
Rural High school entertained
to tea, with the object of rais-
ing funds for their sports
club. The lunch was well at-
tended, and the girls are to be
congratulated on the success
attending their effort.

On the following Friday a
Three-in-one program was
staged by the Rural High,
consisting of a set of slides
dedicating J. M. Barrie's "Peter
Pan," a varied collection of
numbers by the pupils, and a
2d set of slides entitled Fash-
ion's Fancies and Follies of
Days Gone By, providing en-
tertainment for every age. The
picture proved most interest-
ing and the program, con-
ducted entirely by the pupils them-
selves, received favorable com-
ment. The hall was filled to
capacity, and the proceeds
gave great satisfaction to the
promoters. - L. L. P.

The Alberta Oldtimers will
hold a dance tomorrow night
in Memorial hall. Mr. Dan
Brox is on the Cards commit-
tee.

Mr. J. H. McLaughlin has a
quantity of green feed in bun-
dles, and going at a very low
price.

On Easter Sunday Rev. Fa-
ther Terreault, O. M. I., will
sing Holy Mass at Spruce
Grove at 9.30 a.m.

Mr. M. Ducholke is on the
jury which is trying Thomas
Jackson on a manslaughter
charge, as a result of a motor
accident.

Local Liberals will attend
Mr. Bryan's meeting tonight
at Irvington.

Spruce Grove Hardware
has on hand a quantity of Ele-
phant Brand Fertilizer in small
lots for garden use.

Brightbank News

Miss Ella Krause is spend-
ing a few days' holidays with
her sister, Mrs. A. Dewald, at
Keep Hills.

Mr. & Mrs. Mackay have
moved to their homestead up
in the Rocky Rapids district.

Mr. Louie Washburn, who
suffered a serious injury last
week, is said to be doing as
good as could be expected
under the circumstances.

Mr. A. Macdonald has en-
tered on a homestead in the
Genesee district.

A limited company is being
formed in the Mewassin dis-
trict for the purpose of grow-
ing mushrooms.

The local weather predictor
promises us an early spring,
basing his calculations on the
fact that he had seen a robin,
a crow, and a gopher all on
one day.

Mrs. Geo. Dickey of Stony
Plain is the guest of Mrs.
McKay. - Ledue Represent-
ative.

Golden Spike

Following are the names of
those in the Catechism Class
of Rev. P. Hanneman, pastor
of St. John Lutheran Church,
and who are to be confirmed
at the services on Sunday
next.

Adam Gehlert
Bill Trautman
Alfred Baron
Anna Hennig
Emma Werle
Jean Knebel
Elizabeth Fischer

Services at St. Philip's.

Holy week: Thurs., Friday,
Saturday, 9 a.m.

On Easter Sunday, Rev.
Father Terreault, O. M. I., of
St. John's College, Edmonton,
will sing Holy Mass, Spruce
Grove at 9.30; Stony, 11 a.m.

Sporting Notes.

Several ones of light fans went from
Stony on Friday night, to witness the
elimination boxing bouts which were
staged in Memorial Hall. Several of
those who went in took part in the
proceedings. Of one of these partici-
pants a sports writer on the Edmonton
Journal says: "Smashing heavy blows
to the head and body in quick suc-
cession, Don Carmichael of Stony Plain
scored a technical K.O. over H. Myers
of Camrose in the 4th round of their
5-round go in the 147-lb. novice class.
Myers made a big attack in the open-
ing round, but seemed to tire and
Carmichael took advantage of this to
pile up a big lead. Myers was sent to
the canvas with a heavy right to the
body in the opening round but came
back and landed for 3 more rounds be-
fore Referee Palmer awarded the
fight to Carmichael." Young Mr. Car-
michael is the candidate from the
Central Athletic Club, where he got
his start.

A fine, well-written article on
"Hockey" came to hand this week.
It's a lengthy epistle, and owing to
the lateness of its reception and the
fact there's a big pressure on our edi-
tors this week, we regret our inability
to reproduce it in its entirety in this
issue.

As current rumor has it we're to
have no baseball games this season,
an effort is being made to revive that
pleasant pastime, Basketball. That
veteran player of the game, Mr. Henry
Trapp, has the matter in hand.

On the Side.

If you happen to see two or
three men in serious talk, it doesn't
follow they are discussing tariffs
or depressions. More likely they
are wondering what the prospects are
for a bit of golf soon, remarks
an ex-player.

Don't getragemen have their
troubles? Here's this fellow Ted
Cuskey of Los Angeles facing a
charge of kidnapping simply be-
cause when he recommended a car
Mrs. Lottie Stump's son was in it.

For Free Medical Services.

A motion dealing with medical
services in districts where such
services are not available at the
present time, was placed on the
Order paper in the Provincial Leg-
islature recently by a Liberal mem-
ber. The following notice of mo-
tion was given by W. R. Howson,
Liberal leader:

"Whereas proper medical at-
tention is imperative to the peo-
ple of this Province; and where-
as to a large percentage of our
people medical services are not
now available; therefore, be it
resolved that this Legislature is
of the opinion that the Govern-
ment should subsidize sufficient
medical practitioners to attend to
the needs of those people liv-
ing in those areas where medical
services are needed and are not
now available."
